REISSUE APPLICATION DECLARATION BY THE INVENTOR

Docket Number (Optional)

As a below named inventor, I hereby declare that:

My residence, mailing address and citizenship are stated below next to my name.

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number 5,999,952, granted 12/7/99, and for which a reissue patent is sought on the invention entitled Core Computer Unit

the specification of which

☒ is attached hereto.

☐ was filed on _____ as reissue application number _____ / _____
and was amended on _____
(If applicable)

I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☒ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

Redundant limitations are recited in independent claim 1. Specifically the limitation of "non-volatile storage means" is repeated by "means to retain stored information" and the limitation "said core computer unit" not originally a component of a computer" is repeated by "not being a removable or replacement portion or component of a computer". The reissue is a broadening reissue. Patent claimed less than he had a right to claim in the patent. Patentee neglected to make claims to the core computer unit itself apart from the enclosure even though he had a right to do so. These defects were discovered in August 2001 as applicant reviewed the patented claims in preparation for litigation. Patentee avers that these errors arose without any deceptive intention.
